**Subject:** Response to Inquiry to FCC (Tracking Number 584451)

**Inquiry:**

---Reply from Customer on 07/25/2007---

Dear FCC,

Thank you for your response to my e-mail. Please pardon my frustration expressed in that e-mail. I have noted your clarifications of the PBA policy and will follow your additional guidance.

I have reviewed the test report and requested the following clarifications:

1. Confirm which version of C63.4 was used to perform measurements.
2. Clarify the Occupied BW measurement procedure as conducted RF or radiated measurement
3. Indicate the detector used for the Occupied BW measurement.

I will review the response once it is received.

If the response confirms the use of ANSI C63.4:2003, with a radiated measurement of the Occupied BW using a peak detector, will this be acceptable for TCB approval?

Please let me know if you have any additional questions.

Best regards,

Chris Harvey

**Response:**

YES, assuming all else is OK with the revised report.

Do not reply to this message. Please select the [Reply to an Inquiry Response](#) link from the OET Inquiry System to add any additional information pertaining to this inquiry.
